

POMS 2022 Doctoral Consortium

(Virtual-format) POMS 32nd Annual Conference

Saturday, April 23, 2022: 8:30 am -12:30 pm EST

Note: All meetings will be held remote/online via zoom

This year's POMS Doctoral Consortium looks to expose attendees to the current themes and trends that are shaping higher education and that, indirectly, are shaping conduct of research and delivery of quality education at all academic levels in universities today. While we will provide insight to the current academic job market and perspectives on developing a job search strategy, attendees will also hear insight on important changes/trends in the profession. The program aims to provide useful insight and guidance from an esteemed group of early-career, mid-career, and senior faculty members. This program represents an invaluable opportunity for attendees to extend your emerging professional network.

Applications from Ph.D students in business or engineering are now invited. To be considered, email a single Word or pdf file containing the following information and a separate file containing a photo of yourself to:

BUSINESSPHD@ MISSOURI.EDU by midnight April 3rd 2022

- One-page resume, including contact information, affiliation, and thesis advisor
- One-page, non-technical summary of your dissertation title and topic (double space)
- Photo will be included in a summary file of participants' names, schools and emails, to be shared with all attendees.

Important: The two-page Word/pdf file should be labeled: LastName_FirstName.pdf
For example Amita Kaur will name the file: Kaur_Amita.pdf

Acceptance letters will be sent via email by April 8th, 2022

There is no additional cost to attend the Doctoral Consortium but participants must register for the POMS conference. If you submitted an abstract for the conference, the conference abstract is different from the one page document that you submit for participating in the Doctoral Consortium.

The registration deadline for presenting authors at the POMS Annual Conference is March 22, 2022.

If you have questions, then please contact the Chair of the 2022 Doctoral Consortium:
Professor Anthony Ross, anthonyross@missouri.edu

POMS Doctoral Consortium 2022 (Virtual) Tentative Agenda of Topics

(Participation is by application/invitation only)

Saturday, April 23rd 8:30 AM -12:30 pm EST

The POMS Doctoral Consortium provides a unique opportunity for current PhD students to learn about the academic profession, job market process and what life is like as a faculty member, and current themes/trends on navigating one's career. There have been several important shocks to the profession over the last decade. These shocks are reshaping the profession. Come here an esteemed group of junior and senior scholars in business and engineering. The consortium also provides an opportunity to network with fellow PhD students who share similar interests.
